We designed this small yet very handy device in order to help millions of truck drivers around the world who suffer from GPS tracking placed in their 18-wheelers by their employers and who think that their privacy rights are violated in this way. Of course, GP5000 tracking jammer is meant to help all those guys to regain their privacy once and for all. But they are not the only ones who drive vehicles on this planet, right? So any driver willing to protect him or her can use this product to do that. GP5000 anti-tracking device is a very small device that needs to be plugged into electric lighter of your vehicle to use the accumulator of your car as the source of power. Although this navigation jammer cannot block advanced types of tracking devices, it can easily deal with all commonly used GPS trackers and grant you the privacy you eager for.
